PROFESSIONAL SUMMARY

Detail-oriented and adaptable IT professional with a B.S. in Computer Science and hands-on experience in Tier 2 technical support, identity and access management, incident coordination, and software development. Recognized for clear communication, strong problem-solving, and the ability to resolve complex technical issues while protecting sensitive information in fast-paced, collaborative environments.

EDUCATION

CUNY Lehman College - Bronx, NY

Graduated May 2024

Bachelor of Science in Computer Science

Awards: Marc and Mindy Scholarship Foundation (2018)

Organizations: Computer Science Club (2024) | Hanamaru Club (2023 - 2024)

Relevant Courses: Data Structures and Algorithms | Operating Systems |

PROFESSIONAL EXPERIENCE

CUNY Hunter College ICIT - New York, NY

Jun 2025 - Present

IT Support Assistant TRC

- Delivered Tier 2 support for faculty, staff, and students, resolving escalated Windows, macOS, hardware, software, account-access, and connectivity issues through on-site and remote support.
- Performed identity, MFA, and account-recovery actions in CoreView and approved administrative tools while protecting credentials and other sensitive personal information.
- Coordinated incidents in ServiceNow with Hunter networking and cybersecurity teams and CUNY Central, translating technical findings into clear guidance and status updates for end users.
- Supported the campus-wide CUNY MFA rollout, managing high-volume demand from hundreds of users while prioritizing cases and maintaining professional service under pressure.

CUNY Lehman College - Bronx, NY

Nov 2022 - Apr 2023

IT Support Assistant

- Assisted students and staff with end-user support on personal and loaned devices (Windows and MAC) as well as troubleshooting wireless and wired networking issues, providing efficient and technical support to resolve issues and ensure smooth workflow.
- Handled sensitive information, including passwords and account credentials of students in order to provide account assistance.
- Contributed to IT-Projects such as updating printer and desktop hardware, ensuring desktops had correct software, and organization of various IT hardware.

Hazlo Tech - Bronx, NY

Jul 2022 - Aug 2022

Software Engineering Intern

- Developed an Android Application in the Kotlin Framework while collaborating cross-platform with colleagues using Xcode to ensure seamless integration and functionality.
- Completed extensive research to come up with the idea for our product and presented such ideas in regularly held meetings (AGILE Format).
- Maintained version control for a cross-platform application through a shared repository with other colleagues using GIT.
